

Lista de lucrări

Ionut DINCA

1. **I. Dincă**, Scheduler-Free Distributed Job Coordination via Redis Locks and In-Process Cancellation Tokens, Scientific Bulletin of University of Pitești, Mathematics and Computer Science Series, nr. 30, 2025.
2. **I. Dincă**, Aggregate-Consistent Batch Persistence Without ORM: Dual SQL Generation for Multi-Tenant Systems, Scientific Bulletin of University of Pitești, Mathematics and Computer Science Series, nr. 29, 2024.
3. **I. Dincă**, End-to-End Distributed Tracing via Decorator-Based Logging in Heterogeneous Microservice Platforms, Scientific Bulletin of University of Pitești, Mathematics and Computer Science Series, nr. 28, 2023.
4. **I. Dincă**, Event-Driven Coherence Between Local and Distributed Cache Layers in Multi-Node Systems, Scientific Bulletin of University of Pitești, Mathematics and Computer Science Series, nr. 28, 2022.
5. A. Ștefan, D. Constantin, **I. Dincă**, Image processing applications using filtering techniques in the frequency domain, Scientific Bulletin of University of Pitești, Mathematics and Computer Science Series, nr. 27, 2021.
6. **I. Dinca**, C. Tudose, Design Patterns and Generics for Extensible Data Access Layer, Buletin Științific, Seria Matematică- Informatică, Nr. 25, 2019.
7. C. Tudose, **I. Dinca**, On spiking neural P system model checking, Buletin Științific, Seria Matematică și Informatică, Universitatea din Pitești, Nr. 24, 81-88, 2018.
8. C. Tudose, **I. Dinca**, On specification and verification of Petri Nets using Spin model checker, Buletin Științific, Seria Matematică și Informatică, Universitatea din Pitești, Nr. 23, 71-77, 2017.
9. C. Tudose, **I. Dinca**, P systems testing with model checkers - a case study, Buletin Științific, Seria Matematică-Informatică, Universitatea din Pitești, Nr. 22, 2016.
10. F. Ipate, A. Stefanescu, **I. Dinca**, Model Learning and Test Generation using Cover Automata, Computer Journal, Oxford University Press, 2014.
DOI:10.1093/comjnl/bxu032 (revista cotate ISI).
11. S. Akshay, **I. Dinca**, B. Genest, A. Stefanescu, Implementing Realistic Asynchronous Automata, In Proc. of 33rd Conference on Foundations of Software Technology and Theoretical Computer Science (FSTTCS 2013), LIPIcs series, volume 24, pp. 213-224, Schloss Dagstuhl - Leibniz-Zentrum fuer Informatik, 2013 (ISI Proceedings).
12. **I. Dincă**, F. Ipate, A. Stefanescu, Model Learning and Test Generation for Event-B decomposition, In Proc. of ISoLA 2012 conference, LNCS 7609, pp. 539-553, Springer, 2012 (Springer, Scopus, DBLP, ISI Proceedings).
13. **I. Dincă**, F. Ipate, A. Stefanescu, Learn and Test for Event-B - a Rodin Plugin, In Proc. of ABZ 2012, LNCS, volume 7316, pp. 361-364, Springer, 2012 (Springer, Scopus, DBLP, ISI Proceedings).
14. **I. Dincă**, Computing Partial Recursive Functions by Deterministic Symport/Antiport P-Systems, Romanian Journal of Information Science and Technology (ROMJIST), Romanian Academy Publishing House, volume 14(2), pp. 183-199, 2011 (revista cotate ISI).
15. **I. Dincă**, A. Ștefănescu, F. Ipate, R. Lefticaru, C. Tudose, Test Data Generation for Event-B Models Using Genetic Algorithms, In ICSECS 2011: Proc. of 2nd International Conference on Software Engineering and Computer System, Communications in

- Computer and Information Science (CCIS), Vol. 181, Part 1, pp. 76-90, Springer, 2011 (Springer, Scopus, DBLP, ISI Proceedings).
16. **I. Dincă**, Multi-Objective Test Suite Optimization for Event-B Models, In ICIEIS 2011: Proc. of Int. Conf. on Informatics Engineering & Information Science, Communications in Computer and Information Science (CCIS), Vol. 251, Part 3, pp. 551-565, Springer, 2011 (Springer, Scopus, DBLP, ISI Proceedings).
 17. **I. Dincă**, Design Pattern-Based Solutions for General Membrane System Components, In CMC11: Proceedings of the Eleventh International Conference on Membrane Computing, Jena, Germany, Pro BUSINESS Verlag, Berlin, pp. 155-167, 2010.
 18. **I. Dincă**, T. Bălănescu, From P Systems to Software Systems by Design Patterns, Annals of University of Bucharest, Computer Science Series, LIX, pp. 17-26, 2010 (BDI Zentralblatt).
 19. **I. Dincă**, Modeling Numerical Programs With Event-B, Scientific Bulletin of University of Pitești, Mathematics and Computer Science Series, 16, pp. 37-44, 2010 (BDI Zentralblatt).
 20. **I. Dincă**, Computing Numerical Functions by Symport/Antiport P-Systems, Scientific Bulletin of University of Pitești, Mathematics and Computer Science Series, 14, pp. 63-70, 2008 (BDI Zentralblatt).
 21. **I. Dincă**, Simulating Numerical Programs by Symport/Antiport P-Systems, Scientific Bulletin of University of Pitești, Mathematics and Computer Science Series, 13, pp. 51-58, 2007 (CNCSIS B, BDI Zentralblatt).
 22. **I. Dincă**, Software Design Pattern for Membrane Systems Simulation, Scientific Bulletin of University of Pitești, Mathematics and Computer Science Series, 12, pp. 53-64, 2006 (CNCSIS B, BDI Zentralblatt).
